

Towels & Sustainability

To help us keep your room fresh and to protect the environment, please use the guidelines below:

If you would like fresh towels, kindly place all used towels in the laundry basket when requesting room cleaning. Our team will replace them with clean ones.

If you wish to reuse your towels, please hang them on the towel rack. Towels left hanging indicate "reuse" for the next day.

Please avoid leaving towels on the floor so we can keep your bathroom tidy and safe.

By reusing towels, you help us save water and energy, reducing detergents released into the environment.

If you need additional amenities or have any special requests, please contact Operations.

Thank you for helping us care for our planet. Your comfort matters—so does the environment.
